EDUCATION

2009 - 2014
UNIVERSITY OF OPOLE

- Master of Law

ABOUT ME

I am looking for new challenges as a software tester. I am a committed, organized, and open individual with excellent interpersonal skills. I work well both in a team and independently, effectively communicating and listening. My approach is proactive and dynamic, with strong time management and planning abilities.

WORK EXPERIENCE

Quality Island   04.2024 - 07.2024
Junior Manual Tester

- Conducted tests and logged discovered bugs.
- Tested commercial applications for clients using Agile methodologies.
- Created and updated test scenarios.
- Logged and tracked bug reports in JIRA.
- Tested and validated APIs using Postman.
- Executed SQL queries to verify data in the database, analyzed, and manipulated data for testing purposes.

CEVA   2021 - 2024
Troubleshooter

- Identified, analyzed, and resolved technical, operational, and organizational issues.
- Monitored processes to ensure high-quality standards and identified and eliminated root causes of problems.
- Managed conflicts effectively and resolved disputes creatively to minimize disruptions in team operations.

Ingram Micro   2016 - 2021
Logistics and Supply Chain

- Planned and supervised logistics for smooth operations and timely deliveries.
- Collaborated with departments and teams to achieve goals.

Syncreon   2015 - 2016
Quality control specialist

- Implemented and maintained quality procedures to ensure process and product compliance with established standards.

FREELANCE PROJECTS

uTest tester   2023 - 2024

- Detected bugs and reported issues in software.
- Tested features and user scenarios.

Web Designer   2018 - 2020

- Designed and created aesthetic, functional, and responsive website interfaces.
